

TOMATICO

— INTELLIGENT AUTOMATION

Intelligent Automation for Real Environments

Built for **Syria**.

Designed for **Reality**.

Engineered for
Long-Term Operation.

TOMATICO

— INTELLIGENT AUTOMATION

Syrian Expertise. Global-Level Thinking.

Intelligent automation company

Smart infrastructure engineering

Scenario-based automation

Built for real environments

Local-first practical systems

Syrian professionals combining engineering, infrastructure, and automation expertise into a **practical local solution.**

TOMATICO

— INTELLIGENT AUTOMATION

WHY TOMATICO EXISTS

Traditional Smart Systems Fail Here.

PROBLEMS:

Unstable Electricity

Solar & Battery Dependency

Weak Infrastructure

Internet Instability

Voltage Fluctuation

TOMATICO was designed specifically for these conditions.

TOMATICO

— INTELLIGENT AUTOMATION

WHAT MAKES TOMATICO DIFFERENT

Built Around Real Operation

Energy-Aware
Automation

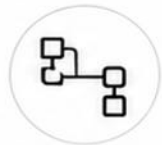

Solar & Battery
Logic

Privacy-First
Systems

Local-First
Architecture

Scenario-Based
Engineering

Infrastructure-Aware
Automation

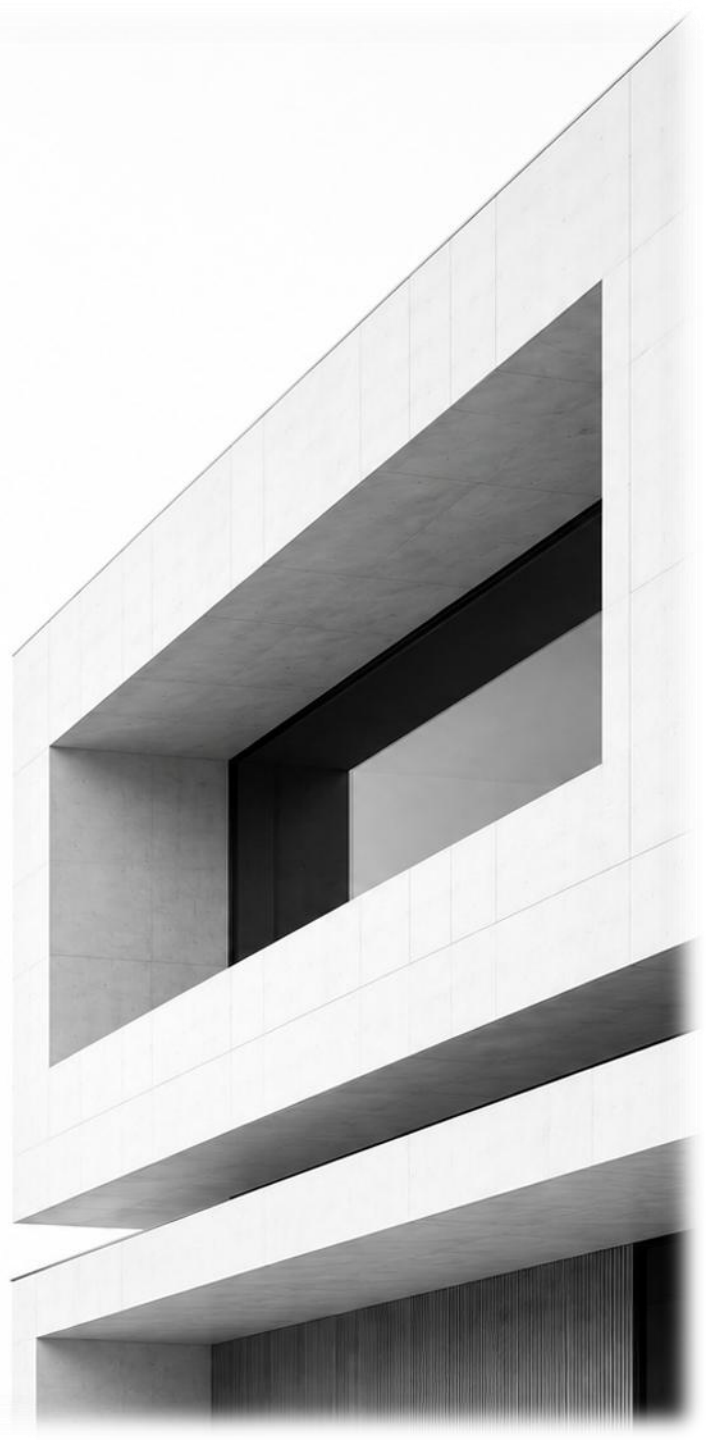

Full Integration
Approach

Practical
Reliability

We design systems that work in the real world,
not just in ideal conditions.

TOMATICO

— INTELLIGENT AUTOMATION

OUR MISSION

Practical Automation. Real Impact.

We design, install, and support intelligent systems that improve how people live and how buildings operate.

Improve Daily Life

Make spaces more comfortable, efficient, and easy to control.

Increase Safety & Security

Protect what matters with reliable and intelligent solutions.

Optimize Energy

Reduce waste and lower costs through smart automation.

Simplify Operations

Automate tasks, reduce effort, and increase efficiency.

Deliver Long-Term Value

Build systems that are reliable, scalable, and future-ready.

“

Our mission is simple:
Deliver intelligent solutions that create real value.

TOMATICO

— INTELLIGENT AUTOMATION

READY TO BUILD SMART, RELIABLE SPACES?

Let's Build What Works.

We are ready to design, implement, and support intelligent automation systems that perform in the real world.

Built for
Real Conditions

Secure &
Private

Energy
Efficient

Fully Integrated
Solutions

Reliable Support
After Delivery

Let's create spaces that are **intelligent**,
efficient, **secure**, and **built to last**.

Let's talk about
your next project.
